Daniel Keinan

New York, NY • dk3425@columbia.edu • (917) 588-9429 • linkedin.com/in/daniel-keinan • github.com/dkdan10

Computer science senior at Columbia, graduating May 2027. Seeking new-grad software engineering roles.

EDUCATION

B.A. Computer Science | **Columbia University**, New York, NY *Sep. 2024 – May 2027 (expected)*

- GPA 3.43. Dean's List, Spring 2026 and Summer 2026.
- Coursework: Analysis of Algorithms, Data Structures, Fundamentals of Computer Systems, Advanced Software Development, Software Quality & Design, Artificial Intelligence, Natural Language Processing, Discrete Math

Undergraduate coursework | **Claremont McKenna College**, Claremont, CA *2016 – 2017*

- Credits transferred to Columbia. Men's basketball (NCAA Division III).

PRIOR INDUSTRY EXPERIENCE

Associate Applications Engineer | **Medidata Solutions**, New York, NY *Dec. 2019 – Jun. 2021*

- Built patient-facing React components and Ruby on Rails endpoints for "Ship Direct to Patient," which let clinical-trial participants receive study medication at home during COVID-19 lockdowns.
- Wrote and shipped features in a large production Rails/React codebase used in active clinical trials. Every change passed two-reviewer code review and dedicated QA on a 10-person Agile team.

Software Engineering Program, then Software Engineer TA | **App Academy**, New York, NY *Jun. 2019 – Dec. 2019*

- Completed the full-time program (Jun.–Sep.: Ruby, Rails, JavaScript, React), then worked as a TA (Oct.–Dec.), answering code questions for 30+ students.

Engineering Intern | **Kawada Robotics**, Tokyo, Japan *Feb. 2019 – May 2019*

- Programmed Kawada's NEXTAGE humanoid robot in C# to sort boxes using camera-based object recognition.

Software Engineering Intern | **AGMednet**, Boston, MA *Jun. 2018 – May 2019*

- Built a prototype configuration tool for AGMednet's medical-imaging software in Angular and MongoDB, cutting configuration time from days to hours. Part-time and remote from Feb. 2019.

PROJECTS

AiLibi — Among Us-style game played entirely by LLM agents (live) | Python, FastAPI, React, PixiJS *2026*

- Nine LLM agents play a hidden-role game. All 100 recorded games replay byte for byte in the browser. In the 50 games with nine players, each of the 397 votes to eject cites a line that agent actually saw or heard.
- Set the architecture: a deterministic engine, agents that receive only their own observations (a boundary checked in CI by import rules and leak tests), and LLM calls confined to meetings. Moved the model backend from Anthropic to local Ollama to Featherless as cost and scale changed.
- Directed Claude Code and Codex agents through 500+ merged pull requests, phase by phase against written acceptance criteria. I decided what merged; the agents wrote the production code.

FADEAWAY — Interactive artwork drawn from 30 seasons of NBA shot data (live) | Python, pandas, TypeScript, Canvas *2026*

- Draws all 5.9M NBA shot attempts from 1996 to 2026 on one half-court to show how shot selection changed and how precisely the league's own record located each shot.
- Made the data and verification decisions: shots joined to 632 games of player tracking, a per-game correction for 101 games where the two sources numbered events differently, and a CI gate that checks every published number against its source.
- Directed AI coding agents to implement the Python pipeline and the TypeScript/Canvas renderer. Wrote the companion paper, CONTESTED, for a Columbia course on art and AI.

TECHNICAL SKILLS

Languages: Python, TypeScript/JavaScript, SQL, Ruby; Java and C (coursework)
Frameworks: React, FastAPI, Node.js/Express, Ruby on Rails
Tools: Git, GitHub Actions (CI/CD), Docker, pytest, Playwright, Vite, PostgreSQL, SQLite, MongoDB, Linux
AI: Claude Code, Codex, LLM APIs (Anthropic, Ollama), pandas, NumPy

ADDITIONAL EXPERIENCE

House Manager (promoted from Resident Advisor) | **Transcend Recovery Community**, New York, NY *May 2022 – Aug. 2024*

- Led daily operations for a structured residential community: crisis response, resident accountability, and cross-team communication in high-stakes situations.

Activities: Scout-team practice player, Columbia Women's Basketball (2024–present)
Volunteering: Covenant House, Reading Partners | **Interests:** Chess, Music
